

How to Change the Wallpaper in iOS 4 (iPod Touch, iPad and iPhone)

1. Sync desired wallpaper images to your iOS powered device using iTunes.
2. Disconnect and power up/wake the device.
3. Launch the settings app.
4. Choose Brightness and Wallpaper (iPad) or Wallpaper (iPod/iPhone)

5. Tap the device thumbnail.
6. Select the folder containing your desired wallpaper image.

7. Use the pinch motion to zoom the image to fill the screen, and drag your finger to move the image into position.

8. Tap Set Background, Set Lock Screen or Set Both (iPad) or tap Set, and choose Background, Lock Screen or Both (iPod/iPhone)

Your changes will immediately take effect upon returning to the home screen.

It's that easy
